Special Notes Concerning Survey	16
INTRODUCTION	17
SAMPLE SIZE	
Table 1.1 <i>Effective Sample Size by District</i>	21
Table 1.2 <i>Sample Size for the Gambia Integrated Household Survey (IHS)</i>	22
DEMOGRAPHIC CHARACTERISTICS	
Table 2.1 <i>Distribution of Population by Gender and District</i>	24
Table 2.2 <i>Distribution of Households by Household Composition (size) and District</i>	26
Table 2.3 <i>Distribution of Population by Gender, Broad Age-groups and Area of Residence</i>	28
Table 2.4 <i>Distribution of Population (population pyramid) by Gender, Broad Age-groups and Area of Residence</i>	29
Table 2.5 <i>Distribution of Population Structure and Age Dependency Ratio by District</i>	30
Table 2.6 <i>Distribution of Household Members Relationship to Head and District</i>	32
Table 2.7 <i>Distribution of Population (12 years and above) by Marital Status and District</i>	34
Table 2.8 <i>Distribution of Population (12 years and above) by Marital Status, Gender and Broad Age-groups</i>	36
Table 2.9 <i>Distribution of Children (0-17 years) Orphaned and Father Living at Home</i>	37
Table 2.10 <i>Distribution of Children (0-17 years) Orphanhood by District</i>	39
Table 2.11 <i>Distribution of Children (0-17 years) Orphanhood by District</i>	41
LITERACY AND EDUCATION	
Table 3.1 <i>Distribution of Adult (15 years and above) Literacy Levels by Gender and District</i>	42
Table 3.2 <i>Distribution of Adult (15 years and above) Literacy Levels by Area of Residence, Gender and Broad Age-groups</i>	44
Table 3.3 <i>Distribution of Youth (15-24 years) Literacy Levels by Gender and District (international definition)</i>	45
Table 3.4 <i>Distribution of Youth (15-24 years) Literacy Levels by Area of Residence, Gender and Single Ages (international definition)</i>	47
Table 3.5 <i>Distribution of Youth (15-35 years) Literacy Levels by Gender and District (country definition)</i>	48
Table 3.6 <i>Distribution of Youth (15-35 years) Literacy Levels by Area of Residence, Gender and Single Ages (country definition)</i>	50
Table 3.7 <i>Distribution Population (15 years and above) who Can do Simple Math Calculations by Gender and District</i>	51
Table 3.8 <i>Distribution Population (15 years and above) who Can do Simple Math Calculations by Area of Residence, Gender and Broad Age-groups</i>	53
Table 3.9 <i>Distribution Population (15 years and above) who Have Ever Attended Adult Literacy Course by Gender and District</i>	54

Table 3.10	<i>Distribution of Population (3 years and above) Who Have Ever Attended School by Gender and District</i>	56
Table 3.11	<i>Distribution of Population (3 years and above) who Ever Attended School by Gender, Area of Residence and Broad Age-group</i>	58
Table 3.12	<i>Distribution Population (3 years and above) who Have Ever Attended School by Gender, Type of School and District</i>	60
Table 3.13	<i>Distribution Population (3 years and above) who Have Ever Attended School by Reason for Attending Madrassah instead of Formal School and District</i>	62
Table 3.14	<i>Distribution of Children (3-18 years) by School Attendance, Gender and District</i>	64
Table 3.15	<i>Distribution of Children (3-18 years) Who Have Ever Attended School by Reason Not Currently Attending School and District</i>	67
Table 3.16	<i>Distribution Population (3 years and above) by Highest Level of Education Attained and District</i>	71
Table 3.17	<i>Distribution of Male Population (3 years and above) by Highest Level of Education Attained and District</i>	73
Table 3.18	<i>Distribution of Female Population (3 years and above) by Highest Level of Education Attained and District</i>	75
Table 3.19	<i>Distribution of Population (3 years and above) by Highest Level of Education Attained, Gender and Broad Age-group</i>	77
Table 3.20	<i>Gross Enrolment Rates (GER) by Level of Education, Gender and District</i>	79
Table 3.21	<i>Net Enrolment Rates (NER) by Level of Education, Gender and District</i>	81
Table 3.22	<i>Gross Enrolment Rates (GER) and Net Enrolment Rates (NER) for Lower Secondary School (LSS) and Upper Secondary School (USS) by Gender and District</i>	83
Table 3.23	<i>Gross and Net Enrolment Rates for Early Childhood (3-6 years) Education, Gender and District</i>	85
Table 3.24	<i>Distribution of Children (3 years and above) Currently Attending School by Who Runs and Manages the School and District</i>	87
Table 3.25	<i>Distribution of Children (3 years and above) in Currently Attending School by Level of Education, Who Manages the School and District</i>	89
Table 3.26	<i>Distribution of Access to School for Children Currently Attending Primary School by District</i>	92
Table 3.27	<i>Distribution of Transportaion Mode for Children Currently Attending Primary School by District</i>	94
Table 3.28	<i>Distribution of Access to School for Children Currently Attending Secondary School by District</i>	96
Table 3.29	<i>Distribution of Transportaion Mode for Children Currently Attending Secondary School by District</i>	98
Table 3.30	<i>Distribution of Children Attending Currently in School if Had an Interruption for a Month or more in the last 12 months by District</i>	100
Table 3.31	<i>Distribution of Population (3 years and above) Who Have Never Attended School by Reason and District</i>	102
Table 3.32	<i>Distribution of Children (3-18 years) Who Have Never Attended School by Reason and District</i>	104
Table 3.33	<i>Distribution of Households by the Frequency of Listening to Radio and District</i>	106
Table 3.34	<i>Distribution of Population (15 years and above) by the Frequency of Listening to Radio and District</i>	108
Table 3.35	<i>Distribution of Population (15 years and above) by Gender, Frequency of Listening to Radio and District</i>	110
Table 3.36	<i>Distribution of Population (15 years and above) by the Frequency of Listening to Radio, Gender and Broad Age-groups</i>	112
Table 3.37	<i>Distribution of Households by the Frequency of Reading a Daily Newspaper and District</i>	113
Table 3.38	<i>Distribution of Population (15 years and above) by the Frequency of Reading a Daily Newspaper and District</i>	115

Table 3.39	<i>Distribution of Population (15 years and above) by Gender, Frequency of Reading a Daily Newspaper and District</i>	117
Table 3.40	<i>Distribution of Population (15 years and above) by the Frequency of Reading a Daily Newspaper, Gender and Broad Age-groups</i>	119
HEALTH		
Table 4.1	<i>Distribution of Population and Gender by Incidence of Sickness in the last Four Weeks and District</i>	120
Table 4.2	<i>Distribution of Population Sick/Injured by Main Type of Illness and District</i>	122
Table 4.3	<i>Distribution of Population and Gender Sick/Injured by Type of Illness and Broad Age-groups</i>	124
Table 4.4	<i>Distribution of Population Sick/Injured by Type of Illness, Area of Residence and Broad Age-groups</i>	126
Table 4.5	<i>Distribution of Population and Gender Who Consulted a Health Practitioner (Use) by Gender and District</i>	128
Table 4.6	<i>Distribution of Population Who Were Sick by Type of Health Practitioner Consulted (Use) and District</i>	130
Table 4.7	<i>Distribution of Satisfaction Levels for Individuals who Consulted a Health Practitioner and District</i>	132
Table 4.8	<i>Distribution of Population by Access to a Health Facility Used when Sick/Injured Within 30 minutes of Residence and District</i>	134
Table 4.9	<i>Distribution of Women (15-49 years) Ever Pregnant and Ever Given Birth by District</i>	136
Table 4.10	<i>Distribution of Women (15-49 year) Ever Pregnant and Ever Given Birth by Age-group and Area of Residence</i>	138
Table 4.11	<i>Distribution of Women (15-49 years) by Children Ever Born and Living by District</i>	139
Table 4.12	<i>Distribution of Women (15-49 years) by Children Ever Born and Living by Age-groups</i>	141
Table 4.13	<i>Distribution of Population (2 years and above) by Disability Status and Type of Disability by District</i>	142
Table 4.14	<i>Distribution of Population (15 years and above) by Ebola awareness and District</i>	144
Table 4.15	<i>Distribution of Male Population (15 years and above) by Ebola awareness and District</i>	146
Table 4.16	<i>Distribution of Female Population (15 years and above) by Ebola awareness and District</i>	148
Table 4.17	<i>Distribution of Population (15 years and above) by Knowledge How to Prevent Ebola Transmisison and District</i>	150
Table 4.18	<i>Distribution of Male Population (15 years and above) by Knowledge How to Prevent Ebola Transmisison and District</i>	152
Table 4.19	<i>Distribution of Female Population (15 years and above) by Knowledge How to Prevent Ebola Transmisison and District</i>	154
Table 4.20	<i>Distribution of Population (15 years and above) and Gender by Knowledge How to Prevent Ebola Transmisison and Broad Age-groups</i>	156
Table 4.21	<i>Distribution of Population (15 years and above) by Knowledge How to Prevent Ebola Transmisison and Area of Residence</i>	158
Table 4.22	<i>Distribution of Population (10 years and above) and Gender by Smoking Characteristics and District</i>	160
Table 4.23	<i>Distribution of Population (10 years and above) and Gender by Smoking Characteristics, Area of Residence and Broad Age-groups</i>	162
Table 4.24	<i>Distribution of Population (10 years and above) and Gender by Current Smoking Habits and District</i>	164
Table 4.25	<i>Distribution of Population (10 years and above) and Gender by Current Smoking Habits and Broad Age-groups</i>	166

EMPLOYMENT

Population 7 years and above

Table 5.1	<i>Distribution of Working Age Population (7 years and above) by District</i>	167
Table 5.2	<i>Percentage Distribution of Population (7 years and above) by Work Status and District</i>	169
Table 5.3	<i>Distribution of Population (7 years and above) by Economic Activity Status, Gender and District</i>	171
Table 5.4	<i>Distribution of Population (7 years and above) by Activity Status, Gender and District</i>	173
Table 5.5	<i>Distribution of Population (7 years and above) of Economically Active by Employmen Status, Gender and District</i>	175
Table 5.6	<i>Percentage Distribution of Population (7 years and above) by Work Status and Broad Age-groups</i>	177
Table 5.7	<i>Distribution of Population (7 years and above) by Activity Status, Gender and District</i>	179
Table 5.8	<i>Distribution of Population (7 years and above) by Activity Status, Gender and District</i>	180
Table 5.9	<i>Distribution of Population (7 years and above) of Economically Active by Employmen Status, Gender and District</i>	181
Table 5.10	<i>Distribution of Working Population (7 years and above) by Employment Sector and District</i>	182
Table 5.11	<i>Percentage Distribution of Working Population (7 years and above) by Employment Status and District</i>	184
Table 5.12	<i>Distribution of Working Population (7 years and above) by Industry of Activity and District</i>	185
Table 5.13	<i>Distribution of Working Population (7 years and above) by Industry of Activity and Broad Age-groups</i>	187
Table 5.14	<i>Distribution of Economically Inactive Population (7 years and above) by Reason and District</i>	189

Population 15-64 years

Table 5.16	<i>Distribution of Working Age Population (15-64 years) by District</i>	191
Table 5.17	<i>Percentage Distribution of Population (15-64 years) by Employment Status and District</i>	193
Table 5.18	<i>Distribution of Population (15-64 years) by Activity Status, Gender and District</i>	195
Table 5.19	<i>Distribution of Population (15-64 years) by Activity Status, Gender and District</i>	197
Table 5.20	<i>Distribution of Population (15-64 years) of Economically Active by Employmen Status, Gender and District</i>	199
Table 5.21	<i>Percentage Distribution of Population (15-64 years) by Work Status and Broad Age-groups</i>	201
Table 5.22	<i>Distribution of Population (15-64 years) by Activity Status, Gender and District</i>	203
Table 5.23	<i>Distribution of Population (15-64 years) by Activity Status, Gender and District</i>	204
Table 5.24	<i>Distribution of Population (15-64 years) of Economically Active by Employmen Status, Gender and District</i>	205
Table 5.25	<i>Distribution of Working Population (15-64 years) by Employment Sector and District</i>	206
Table 5.26	<i>Distribution of Working Population (15-64 years) by Employment Sector and Broad Age-groups</i>	208
Table 5.27	<i>Distribution of Working Population (15-64 years) by Industry of Activity and District</i>	209
Table 5.28	<i>Distribution of Working Population (15-64 years) by Industry of Activity and Broad Age-groups</i>	211
Table 5.29	<i>Distribution of Economically Inactive Population (15-64 years) by Reason and District</i>	213

Youth Population 15-35 years

Table 5.31	<i>Percentage Distribution of Population (15-64 years) by Work Status and Broad Age-groups</i>	215
Table 5.32	<i>Percentage Distribution of Youth (15-35 years) by Work Status and District</i>	217
Table 5.33	<i>Distribution of Youth (15-35 years) by Economic Activity Status, Gender and District</i>	219
Table 5.34	<i>Distribution of Youth (15-35 years) by Activity Status, Gender and District</i>	221
Table 5.35	<i>Distribution of Youth (15-35 years) of Economically Active by Employmen Status, Gender and District</i>	223
Table 5.36	<i>Percentage Distribution of Youth (15-35 years) by Work Status and Broad Age-groups</i>	225
Table 5.37	<i>Distribution of Youth (15-35 years) by Activity Status, Gender and District</i>	226
Table 5.38	<i>Distribution of Youth (15-35 years) of Economically Active by Employmen Status, Gender and District</i>	227
Table 5.39	<i>Distribution of Working Youth (15-35 years) by Employment Sector and District</i>	228
Table 5.40	<i>Distribution of Working Population (15-35 years) by Employment Sector and Broad Age-groups</i>	230
Table 5.41	<i>Distribution of Working Youth (15-35 years) by Industry of Activity and District</i>	231
Table 5.42	<i>Distribution of Working Population (15-64 years) by Industry of Activity and Broad Age-groups</i>	233
Table 5.43	<i>Distribution of Economically Inactive Youth (15-35 years) by Reason and District</i>	234

CHILD NUTRITION AND SURVIVAL

Table 6.1	<i>Distribution of Children (0-59 months) by Gender</i>	236
Table 6.2	<i>Distribution of Births for Children (0-59 months) by Place of Delivery and District</i>	237
Table 6.3	<i>Distribution of Births for Children (0-59 months) by Type of Assistance during Delivery and District</i>	239
Table 6.4	<i>Distribution of Children (0-59 months) by Type of Immunization Vaccinne and District</i>	241
Table 6.5	<i>Distribution of Children (0-59 months) by Type of Immunization Vaccinne, Age in Months and Gender</i>	243
Table 6.6	<i>Distribution of Children (0-59 months) by Ever and Still Breastfeeding and District</i>	244
Table 6.7	<i>Distribution of Children (0-59 months) by Length of Breastfeeding Practices and District</i>	246
Table 6.8	<i>Distribution of Children (0-59 months) by Breastfeeding Practices by Age in months and Gender</i>	248
Table 6.9	<i>Distribution of Children (0-59 months) by Type of Programme and District</i>	249

HOUSEHOLD HEAD CHARACTERISTICS

Table 7.1	<i>Distribution of Household Heads by Gender and District</i>	251
Table 7.2	<i>Distribution of Household Heads by Gender by Area of Residence and Broad Age-Groups</i>	252
Table 7.3	<i>Distribution of Household Heads by Marital Status and District</i>	253
Table 7.4	<i>Distribution of Male Household Heads by Marital Status and District</i>	255
Table 7.5	<i>Distribution of Female Household Heads by Marital Status and District</i>	257
Table 7.6	<i>Distribution of Literacy Levels of Household Heads by Gender and District</i>	259
Table 7.7	<i>Distribution of Literacy Levels of Household Heads by Gender, Area of Residence and Broad Age-groups</i>	261
Table 7.8	<i>Distribution of Household Heads who have Ever Attended School by Gender and District</i>	263
Table 7.9	<i>Distribution of Highest Education Level Completed of Household Heads by District</i>	265

Table 7.10	<i>Distribution of Highest Education Level Completed by Male Household Heads and District</i>	267
Table 7.11	<i>Distribution of Highest Education Level Completed by Female Household Heads and District</i>	269
Table 7.12	<i>Distribution of Highest Education Level Completed of Household Heads by Age-group and Gender</i>	271
Table 7.13	<i>Distribution of Highest Education Level Completed of Household Heads for Urban Area by Gender and Age-group</i>	273
Table 7.14	<i>Distribution of Highest Education Level Completed of Household Heads for Rural Area by Gender and Age-group</i>	274
Table 7.15	<i>Distribution of Household Heads by Ebola awareness and District</i>	276
Table 7.16	<i>Percentage Distribution of Household Heads by Ebola awareness and Broad Age-groups and Gender</i>	278
Table 7.17	<i>Percentage Distribution of Household Heads by Ebola awareness and Area of Residence</i>	280
Table 7.18	<i>Percentage Distribution of Household Heads by Work Status and District</i>	282
Table 7.19	<i>Distribution of Household Heads by Economic Activity Status, Gender and District</i>	284
Table 7.20	<i>Distribution of Household Heads by Activity Status, Gender and District</i>	286
Table 7.21	<i>Distribution of Household Heads of Economically Active by Employment Status, Gender and District</i>	288
Table 7.22	<i>Percentage Distribution of Household Heads by Work Status and Broad Age-groups</i>	290
Table 7.23	<i>Distribution of Household Heads by Activity Status, Gender and District</i>	292
Table 7.24	<i>Distribution of Working Household Heads by Employment Sector and District</i>	293
Table 7.25	<i>Distribution of Working Household Heads by Employment Sector and Broad Age-groups</i>	295
Table 7.26	<i>Distribution of Working Household Heads by Industry of Activity and District</i>	296
Table 7.27	<i>Distribution of Working Population Household Heads by Industry of Activity and Broad Age-groups</i>	298
Table 7.28	<i>Distribution of Economically Inactive Household Heads by Reason and District</i>	300

HOUSEHOLD AMENITIES AND ASSETS

Table 8.1	<i>Distribution of Households by Ownership and District</i>	302
Table 8.2	<i>Distribution of Owner-Occupied Households by Tenure and District</i>	304
Table 8.3	<i>Distribution of Households by Number of Rooms and District</i>	306
Table 8.4	<i>Distribution of Households by Main Material Used for Wall Construction of the House and District</i>	308
Table 8.5	<i>Distribution of Households by Main Material Used for Roof Construction of the House and District</i>	310
Table 8.6	<i>Distribution of Households by Main Material Used for Floor Construction of the House and District</i>	312
Table 8.7	<i>Distribution of Households by Improved Water Source, Main Source of Drinking Water and District</i>	314
Table 8.8	<i>Distribution of Households By Access to Water, Time Taken to Water Supply (One way) and District</i>	317
Table 8.9	<i>Distribution of Households by Non-wood Fuel Use, Main Source of Fuel for Cooking and District</i>	319
Table 8.10	<i>Distribution of Households by Main Type of Toilet and Sharing Arrangements and District</i>	322
Table 8.11	<i>Distribution of Households by Main Source of Fuel for Lighting and District</i>	323
Table 8.12	<i>Distribution of Households by Source Place of Main Cooking Fuel and District</i>	326

Table 8.13	<i>Distribution of Households by Location of Cooking Place in Household and District</i>	328
Table 8.14	<i>Distribution of Households by Improved Garbage Disposal, Type of Main Waste Disposal and District</i>	330
Table 8.15	<i>Distribution of Households by Improved Garbage Disposal, Type of Main Waste Disposal and District</i>	332
Table 8.16	<i>Distribution of Households by Type of Main Liquid Disposal and District</i>	335
Table 8.17	<i>Distribution of Households Owning Assets by District</i>	337

ACCESS TO SOCIAL AMENITIES

Table 9.1	<i>Distribution of Households By Access and Time Taken to Nearest Primary School and District</i>	343
Table 9.2	<i>Distribution of Households By Access and Time Taken to Nearest Secondary School and District</i>	345
Table 9.3	<i>Distribution of Households By Access and Time Taken to Nearest Health Clinic and District</i>	347
Table 9.4	<i>Distribution of Households By Access and Time Taken to Nearest Hospital and District</i>	349
Table 9.5	<i>Distribution of Households By Access to Water, Time Taken to Nearest Supply of Drinking Water and District</i>	351
Table 9.6	<i>Distribution Households By Access and Time Taken to Nearest Post Office and District</i>	353
Table 9.7	<i>Distribution of Households By Access and Time Taken to Nearest Public Transport and District</i>	355
Table 9.8	<i>Distribution of Households By Access and Time Taken to Nearest Food Market and District</i>	357
Table 9.9	<i>Distribution of Households By Access and Time Taken to Nearest All Seasons Road and District</i>	359
Table 9.10	<i>Distribution of Households By Access and Time Taken to Nearest Police Station and District</i>	361

HOUSEHOLD PERCEPTIONS OF WELL-BEING

Table 10.1	<i>Distribution of Households by Perceived Poverty Status and District</i>	363
Table 10.2	<i>Distribution of Households by Income Situation and District</i>	365
Table 10.3	<i>Distribution of Satisfaction with Household's Financial Situation and District</i>	367
Table 10.4	<i>Distribution of Households by Difficulty in Satisfying the Food Needs Compared to One Year Ago and District</i>	369
Table 10.5	<i>Distribution of Households by Difficulty in Satisfying the School fees Compared to One Year Ago and District</i>	371
Table 10.6	<i>Distribution of Households by Difficulty in Satisfying the Health care Compared to One Year Ago and District</i>	373
Table 10.8	<i>Distribution of Households of Community Living Standards Over the Last 12 months by District</i>	375
Table 10.7	<i>Distribution of Households of Perceived Poverty in relation to other households in Community by District</i>	377
Table 10.9	<i>Distribution of Households by Who Household Can Depend to Provide Assistance in Times of Need and District</i>	379
Table 10.10	<i>Distribution of Households who Stated that Poverty Reduction is a Government Priority by District</i>	381
Table 10.11	<i>Distribution of Households by Most Important measures that the Government should Take to Improve Households Living Standards and District</i>	383
Table 10.12	<i>Distribution of Households by Second Important measures that the Government should Take to Improve Households Living Standards and District</i>	386
Table 10.13	<i>Distribution of Households by Membership of Various Associations and District</i>	389

VIOLENCE, CRIME AND SAFETY

Table 11.1	<i>Distribution of Households that Experienced any Crime in the Last 5 years by Type of Crime and District</i>	391
Table 11.2	<i>Distribution of Households by Level of Violence in Community and District</i>	393
Table 11.3	<i>Distribution of Households by Perceptions of Safety Walking in the Street at Night by District</i>	395
Table 11.4	<i>Distribution of Households Confidence in State Authorities to Protect them from Crime and Violence and District</i>	397
Table 11.5	<i>Distribution of Households with Neighbourhood Watch Systems and District</i>	399
Table 11.6	<i>Distribution of Households by Major Cause of Conflict in Community and District</i>	401
Table 11.7	<i>Distribution of Households by Perceptions of How Easy/Difficult to obtain Assistance from Police and District</i>	403
Table 11.8	<i>Distribution of Households by Access to Contact of Courts and District</i>	405
Table 11.9	<i>Distribution of Households by Trust in Police and District</i>	407
Table 11.10	<i>Distribution of Households by Trust in The Court of Law and District</i>	409

MIGRATION

Population 5 years and above

Table 12.1	<i>Distribution of Population (5 years and above) by Migration Status and District</i>	411
Table 12.2	<i>Distribution of Population (5 years and above) by Internal, External Migration and District</i>	414
Table 12.3	<i>Distribution of Population (5 years and above) by Primary Reason for Departure from Previous Location and District</i>	416

Population 15 years and above

Table 12.4	<i>Distribution of Population (15 years and above) by Migration Status and District</i>	422
Table 12.5	<i>Distribution of Population (15 years and above) by Internal, External Migration and District</i>	425
Table 12.6	<i>Distribution of Population (15 years and above) by Primary Reason for Departure from Previous Location and District</i>	427

Youth 15-35 years (country definition)

Table 12.7	<i>Distribution of Youth (15-35 years) by Migration Status and District</i>	433
Table 12.8	<i>Distribution of Youth (15-35 years) by Internal, External Migration and District</i>	436
Table 12.9	<i>Distribution of Youth (15-35 years) by Primary Reason for Departure from Previous Location and District</i>	438

TRANSFERS

Table 13.1	<i>Distribution of Households that Received Transfers From HH Member/Non-HH Member by District</i>	444
Table 13.2	<i>Distribution of Population that Received Transfers by Sender's Residence and District</i>	446
Table 13.3	<i>Distribution of Population that Received Transfers by Regularity of Transfers and District</i>	448
Table 13.4	<i>Distribution of Households that Made Out Transfers by District</i>	450
Table 13.5	<i>Distribution of Population that Made Out Transfers by Receiver's Residence and District</i>	452
Table 13.6	<i>Distribution of Population that Made Out by Regularity of Transfers and District</i>	454

CREDIT

Table 14.1	<i>Distribution of Households by Access to Credit, Reason for not Borrowing and District</i>	456
Table 14.2	<i>Distribution of Population Who had Access to Credit by Source of Credit and District</i>	458

Table 14.3	<i>Distribution of Loans Received by Main Purpose and District</i>	460
Table 14.4	<i>Distribution of Loans Received by Type of Collateral (Guarantee) and District</i>	462
Table 14.5	<i>Distribution of Households for which a Loan was Denied and District</i>	466
Table 14.6	<i>Distribution of Population Who were Denied Credit by Main Reason Denied and District</i>	468
Table 14.7	<i>Distribution of Households by Savings and/or Osusu Account and District</i>	470
Table 14.8	<i>Distribution of Population With a Savings or Osusu Account by District</i>	472

ENVIRONMENT

Table 15.1	<i>Distribution of Households by Type of Environmental Messages Received Last 12 Months and District</i>	473
Table 15.2	<i>Distribution of Households by Belief that the Authorities are Doing Enough to Arrest Environmental Concerns and District</i>	476
Table 15.3	<i>Distribution of Households by How to Stop Destruction of Forests and District</i>	478
Table 15.4	<i>Distribution of Households by Quality of Air, Source of pollution and District</i>	481
Table 15.5	<i>Distribution of Households by Quality of Household Drinking Water and District</i>	484
Table 15.6	<i>Distribution of Households by Cause of Disaster Last 12 months and District</i>	487
Table 15.7	<i>Distribution of Households by Severity of Disaster Last 12 months and District</i>	490
Table 15.8	<i>Distribution of Households by Coping Mechanism in Time of Need and District</i>	492

GOVERNANCE

Table 16.1	<i>Distribution of Households by Awareness of the National Council for Civic Education (NCCE) and District</i>	494
Table 16.2	<i>Distribution of Households by Source of Information of NCCE Messages and District</i>	497
Table 16.3	<i>Distribution of Households by Awareness of the Office of the Ombudsman and District</i>	499
Table 16.4	<i>Distribution of Households by Main Reason for Lack of Independence of the Office of the Ombudsman and District</i>	501
Table 16.5	<i>Distribution of Households by Awareness of the Alternative Dispute Resolution Secretariat (ADRS) and District</i>	503
Table 16.6	<i>Distribution of Households by Most Important Ward Need and District</i>	505
Table 16.7	<i>Distribution of Households by Perception of the Election Processes and District</i>	508
Table 16.8	<i>Distribution of Households by Awareness of Government Policy documents and District</i>	510

AGRICULTURE

Preface

The Integrated Household Survey (IHS) is one of the two major household surveys alongside Multiple Indicator Cluster Survey (MICS) that are regularly conducted by the Gambia Bureau of Statistics (GBoS). Several surveys have been undertaken on household income and expenditure but the first and second IHSs were conducted in 2003/04 and 2010/11 respectively while the third round was conducted in (2015/16). The results of the survey has been the key input in the measurement of poverty at the national level as well as providing valuable information in the evaluation of changing conditions in households.

These surveys have provided government and all stakeholders with indicators (mostly on poverty and vulnerability) to enable evidence-based policy formulation and monitor the progress towards national and international development frameworks.

The First Integrated Household Survey was designed and conducted by the National Statistics Office (then Central Statistics Department) with technical and financial assistance from World Bank (WB) under the Capacity Building and Economic Management Project (CBEMP). The second IHS which was designed and conducted by GBoS with technical and financial support from the United Nations Development Programme (UNDP) made provision for important data on household income, consumption expenditure and pattern at national and urban/rural levels. It is important, however, to note that both the earlier IHSs were representative at the Local Government Area (LGA).

The primary objective of the IHS2015/16 was to monitor the determinants of poverty and its dynamics, assist the Gambia Government and stakeholders with the necessary socio-economic data for poverty monitoring and policy formulation. The survey also provides weights to rebase the Consumer Price Index (CPI) and the much needed household data to update the System of National Accounts (SNA) from SNA1993 to SNA2008.

The IHS2015/16 cannot come at a better time as the country is on the verge of completing the mid-term national development blueprint that will guide the government and its development partners. It is also the first major household survey that is finalized after the approval of the SDG indicators as well as Agenda 2063. These are both international frameworks to which Gambia has subscribed. Therefore, the IHS2015/16 will supply valuable information on the status, and dynamics of poverty of household and individuals. It will also offer further information on other socio-economic variables. The added advantage of this survey is the availability of estimates for indicators at a micro level than the previous IHSs as the sampling was done at a lower level (district level sampling). This provides government and stakeholders with better understanding of the social variables at district level compared to other previous household survey.

The IHS 2015/2016 also provides a basis for the conduct of future surveys in terms of content and coverage. While the questionnaire is open to updates and adjustments, it was design in a very comprehensive manner so that other similar surveys could be built from it, as it deals with a wide range of topics covering many sectors and arising issues. Notwithstanding, specific issues on Women and Children as well as mortality and irregular migration was not discussed.

GBoS has had constant technical support from World Bank throughout the design and implementation of the survey as part of the pledges made by them. This is part of World Bank's objective to support sub-Sahara African countries in providing technical and financial support in implementing national representative surveys covering valuable topics, monitor poverty and other social indicators.

The financial support for this round of IHS mainly came from The Government of The Gambia, World Bank, UNDP, UNICEF, FAO, WFP and WHO.

Nyakassi M. B. Sanyang
Statistician General
Gambia Bureau of Statistics, Gambia

Acknowledgments

The Gambia Bureau of Statistics presents the results of the third Integrated Household Survey (IHS2015/16) that will facilitate monitoring and evaluation of different policies and programs at both district and national levels. This is the first survey that provides poverty profile at the district level in The Gambia and will better inform the finalization of the national development plan. It is also the first detailed household survey completed after the approval of the SDG indicators as well as the African Agenda 2063.

In order to support evidence-based decision and planning processes with more frequent and reliable statistics, the frequency of IHS is now going to be three years instead of five. This is an ambitious target that we are committed to achieve in collaboration with our stakeholders.

In this regard, we present our sincere appreciation to the Government of The Gambia for its support for statistics development in the country, the Ministry of Finance and Economic affairs, and other Government Ministries, Departments and Agencies for the facilitation that we received in this endeavor and in other similar efforts.

We express our sincere appreciation to World Bank that has provided constant technical and financial support throughout the design, implementation and analysis of the IHS2015/16. We equally wish to thank the United Nations Development Programme (UNDP) for its continued support. Special gratitude also goes to other UN agencies such as United Children's Fund (UNICEF), World Food Programme (WFP), World Health Organisation (WHO) and Food and Agriculture Organisation (FAO). Their contribution was of immense importance to the effective accomplishment of the survey.

We would also like to thank the IHS2015/16 management team and the entire staff of GBoS for their effort throughout the planning and implementation stages. We also appreciate the valuable collaboration from all survey respondents.

Definition of Concepts

- Region: There are eight Local Government Areas (LGA) in Gambia.
- District: The country is demarcated into 42 districts. The boundaries of the districts do not necessarily conform to the boundaries of the local authorities but conform with regional boundaries. Districts are the lower-level divisions from regions.
- Urban: According to the 2013 Population and Housing Census, a settlement is considered to be urban if it satisfies most of the following:
 - Has commercial importance
 - Has institutional importance
 - Majority of the population's occupation is non-agricultural
 - Total population is at least 5,000
 - Population density is high
 - Some degree of infrastructure is available

DEMOGRAPHIC CHARACTERISTICS

- Population defined here is not the CENSUS definition (de facto count). Population referred here are only persons living in households and excludes persons in Institutions, streets, etc.
- Dependency ratio: population age 0-14 and population age ≥ 65 / population age 15-64
- Child: The UN Convention on the Rights of the Child (CRC) defines a child as a boy or girl under the age of 18 and considers a child as both an individual as well as a member of a family and a community. This definition is adopted in this report.

EDUCATION

- Official school enrolment age ranges from 3-6 years in Early Childhood Education, 7-12 years in Lower Basic education; 13-15 years in Upper Secondary education and 16-18 years in Senior Secondary education establishments.
- Adult Literacy is defined for persons age 15+ years who can both read and write in any language. The survey did not test reading/writing proficiency skills (operational skilled-based definition) but respondents did a self-evaluation.
- Youth Literacy (international) is defined for persons age 15-24 years who can both read and write in any language. The survey did not test reading/writing proficiency skills (operational skilled-based definition) but respondents did a self-evaluation.
- Youth Literacy (country) is defined for persons age 15-35 years who can both read and write in any language. The National Youth Policy (2009-2018) defines a youth as someone whose age is between 13-30 years. This was revised to 15-35 years in 2016.
- Access to school is defined as children currently in school with less than 30 minutes to school.
- Primary school estimates are defined for children aged 7-12 years.
- Primary Gross Enrollment Ratio (GER) is defined for children currently in primary school (P1-P6) irrespective of age.
- Primary Net Enrolment Ratio is defined for children currently in primary school (P1-P6) of primary school age (7-12 years).
- Secondary school estimates are defined for children aged 13-18 years.
- Secondary Gross Enrollment Ratio (GER) is defined for children currently in secondary school (JSS1-JSS3 and SSS1-SSS4) irrespective of age.
- Secondary Net Enrollment Ratio (NER) is defined for children currently in secondary school (JSS1-JSS3 and SSS1-SSS4) of secondary school age (13-18 years).
- Satisfaction is defined for children of all ages currently in primary or secondary school who cited no problems with school.
- Tertiary school estimates are defined for children aged 19-22 years.
- Tertiary Gross Enrollment Ratio (TER) is defined for children currently in Teacher Training, Nursing and University and other Tertiary of all ages.

- Tertiary Net Enrollment Ratio (TER) is defined for children currently in Teacher Training, Nursing, University and other Tertiary of school age (19-22 years).
- Overall Enrollment (net) is defined for children currently in school of school age (7-22 years).
- Overall Enrollment (gross) is defined for children currently in school of all ages.
- Gender Parity Index (GPI): A value of 1 in the GPI indicates that there are no disparities between males and females. Values below 1 indicate disparities favouring males, and above 1, disparities favouring females.

HEALTH

- Access is defined for persons less than 30 minutes from a health facility.
- Need is defined for persons sick or injured in the four-week period preceding the survey.
- Use is defined for persons who consulted a health practitioner in the four-week period preceding the survey.
- Satisfaction is defined for persons who consulted a health practitioner in the four week period preceding the survey who cited no problems.

EMPLOYMENT

- The ILO definition of unemployed comprise 3 conditions of persons above a specified age during the reference period:
 - without work, that is, were not in paid employment or self employment during the reference period;
 - currently available for work, that is, were available for paid employment or self-employment during the reference period; and
 - seeking work, that is, had taken specific steps in a specified recent period to seek paid employment or self-employment.

In the context of Gambia, only the first 2 conditions defined unemployment. Unemployment was computed for 7+ years (as in the census) and international definition 15-64 years.

CHILD NUTRITION

- Child birth delivery by health professionals is defined for children aged 5 years and under whose births were assisted by a doctor, nurse or midwife.

HOUSEHOLD HEAD CHARACTERISTICS

- Household Head: Is defined as the person in the household recognized as the head by other household members. This is generally the person responsible for the upkeep and maintenance of the household. In his/her absence, the person who takes charge of the household is considered a "temporary head". All household relationships are defined with reference to the head or temporary head.

HOUSEHOLD AMENITIES AND ASSETS

- Access to improved water sources is defined as having piped water in the dwelling, public outdoor tap, borehole and protected well.
- Access to improved sanitation is defined for households using a flush toilet, covered pit latrine, VIP.
- Access to improved waste disposal is defined for households that have their refuse collected or use a public dump.
- Non-wood fuel for cooking is the use of any fuel other than firewood and charcoal for cooking.

ACCESS TO AMENITIES

- Access is having the nearest specified facility, i.e. primary school, secondary school, health facility, water source, telecommunication facility, public transport and food market, within 30 minutes from the household.

HOUSEHOLD PERCEPTIONS OF WELL-BEING

- Difficulty meeting food needs is defined for households that reported difficulty meeting food needs often or always.
- Household economic situation compared to one year ago: Worse is defined for households that replied much worse now or a little worse now; better is defined for households that replied a little better now or much better now.

Special Notes Concerning Survey

- All percentages are weighted (grossed up) unless otherwise stated.
- To obtain national estimates, the sample figures had to be grossed up by the appropriate factor (weighting coefficient).
- "N" implies the weighted sample size (number of observations) by the various dimensions such as population, gender, rural-urban, etc of the analyses.
- 0.0 means .. or negligible
- Because of the effects of rounding, percentages may not always add exactly to 100.
- Percentages add up to 100 unless otherwise stated.
- For the some reasons estimated numbers may not add exactly to the estimated totals shown in the table.
- Missing information is not imputed.
- The tables refer to IHS 2015/16 unless specified.

Introduction

The international discussion on the need for more and better data for policymaking has reached an almost unprecedented level. International agreements on the Millennium Development Goals (MDGs) and country-level Poverty Reduction Strategies such as the current Programme for Accelerated Growth and Employment (PAGE) have focused attention on the statistical systems that must produce the data to measure progress on the MDGs and National Development Plans. To this end, the role and importance of household surveys in the Statistical System cannot be overemphasized. Household surveys are not only the source of specific types of data required for effective policy making but also they offer the most reliable information for targeted interventions. The proposed project encompasses, among other features: the design and implementation of a household survey focusing on household income and expenditure which feeds into poverty analysis, CPI construction, and update of household expenditures section within National Accounts. The project is also expected to provide a detailed agricultural productivity analysis and serve as baseline data for the successor of "PAGE" and data to assess the progress thus far. Other components of this project include capacity building and cross-country knowledge sharing, alongside efforts to improve survey methodologies in The Gambia.

Objective of the Survey

A socioeconomic survey is one of the most important sources of statistical data on household expenditure and income as well as for other data on housing status, individual and household characteristics, and living conditions. Not only do they provide indicators to measure specific economic and social issues, but they also provide information that makes it possible to know and explain the determinant or causal factors behind the behaviour of such issues.

Several income and expenditure survey have been conducted since 1989. The 2015/16 Integrated Household Survey (IHS) will be the third conducted in The Gambia. The first IHS was conducted in 2003 and the second was in 2010. In the 2003 IHS the daily diary, which was intended to record current expenditure for one full month was actually administered to half of the sample of the 4,800 households and for more than half of this sub-sample the diaries were administered during a shorter period. This was due to many problems met in the collection such as the low literacy levels in the households and weaknesses during the data collection. This was the reason why the 2010 IHS used recall where the enumerator recorded purchases during the interview. The 2015/16 IHS will use a similar approach as in 2010. This survey is important because it will provide The Gambia Government with comprehensive information on the socio-economic status of the population and to enable government to monitor the determinants of poverty and its dynamics. Thus, information from the IHS can be used to assess the current levels of differentials among population and to evaluate basic household needs in key sectors such as drinking water, energy, schooling, health facilities, sanitation, employment and other sectors.

The specific objectives of the 2015/16 IHS includes:

- To provide a database that allows for end time analysis of national level government policies embedded within the PAGE.
- To understand the poverty dynamics across the country and factors influencing them.
- To obtain in-depth understanding on the living standards of households to livelihood strategies and measures of income diversification.
- To get information on household expenditure patterns in order to update the National Accounts.
- To obtain a new set of weights for the basket of goods and services that allow for upgrading the Consumer Price Index (CPI).
- To build capacity and development of sustainable systems for the production of accurate and timely information on households in The Gambia. A number of training activities are envisaged under this project such as a STATA workshop, household survey design and management, and study tours for poverty analysis.

Sample Design

Coverage

The whole country was covered concurrently during the entire survey period, spreading over twelve months and divided into four sub-samples representing seasonal/ quarterly variation.

Sampling plan

A two-stage probability proportional to size (PPS) stratified random sampling (size being number of households per EA) without replacement was adopted. At each stage, sub-samples of equal size were independently drawn without replacement. Sampling units were selected for each sub-sample with simple random sampling without replacement. Each survey period (a quarter – 3 months) was allocated one sub-sample.

Local Government Area and District corresponds to the survey Stratum. Enumeration Areas (EAs) were taken as the first stage units whilst 20 households within EAs were selected as the second stage units.

Sampling Frame

For the first stage selection, the 2013 Census EA list was used as the frame. The available information about the EAs are the EA boundaries with the number of household size. In the second stage, all the EAs selected were combed by a listing of households exercise by an individual enumerator for subsequent household selection.

First Stage Stratification

Except for Kanifing LGA which does not have district connotation per se, EAs were stratified according to districts for the other seven LGAs.

The actual sample size was 600 EAs (13,000 households) but due to rounding up the sample increase to 605 EAs. 10 districts have less than 4 EAs and to be able to capture the sessional variation in them they are adjusted to 4 EAs. A total of 22 EAs were added to the sample. The final sample is about 622 EAS (12,440 households). A total of 44 (district) first stage strata including Kanifing were determined.

Taking into consideration the available resources and manpower, 622 EAs consisting of four sub-samples of 155.5 EAs each was covered during the entire survey period of twelve months. Thus, each phase (a quarter – 3 months) of the survey was allocated 155.5 EAs.

Second Stage Sample

Again, the available resources dictated a sample size of 12,440 households. It required twelve teams constituting twelve (12) supervisors and seventy (70) enumerators each were assigned to different geographical locations, taking into account social and cultural considerations amongst others. Each enumerator covered a total of 259. Seventeen (17) households in each phase of a three-month period corresponding to 12.96 EAs. Each team will be allocated about 4.32 EAs or 86.38 households per month. Twenty (20) households per EA were selected with simple random sampling without replacement - all of which part one and part two questionnaires were administered.

Survey Instruments

The Gambia Integrated Household Survey (IHS) 2015/16 adopted a house-based questionnaire. To ensure concise responses for the interviews, pre-coded multiple-choice response questions were used. These include:-

- **Part 1: Household Questionnaire**

- SECTION 0: HOUSEHOLD PARTICULARS

- SECTION 1: HOUSEHOLD ROSTER

- SECTION 2A: HEALTH - GENERAL

- SECTION 2B: EBOLA AWARENESS

- SECTION 2C: HEALTH - DISABILITY

- SECTION 2D: HEALTH - SMOKING

SECTION 2E: HEALTH - CHILD HEALTH
SECTION 2F: HEALTH - FERTILITY
SECTION 3A: EDUCATION - GENERAL
SECTION 3B: EDUCATION - EXPENDITURE
SECTION 3C: EDUCATION - LITERACY
SECTION 3D: EDUCATION - TRAINING
SECTION 4A: LABOUR FORCE PARTICIPATION
SECTION 4B: UNEMPLOYMENT SCREENING
SECTION 4C: LABOUR - OVERVIEW LAST 7 DAYS
SECTION 4D: MAIN JOB
SECTION 4E: SECONDARY JOB
SECTION 4F: JOB LAST 12 MONTHS IF DIFFERENT FROM EITHER PRIMARY OR SECONDARY JOB
SECTION 5: MIGRATION
SECTION 6: DECISION-MAKING
SECTION 7A: CREDIT RECEIVED
SECTION 7B: CREDIT DENIED
SECTION 7C: SAVINGS
SECTION 8A: HOUSING
SECTION 8B: HOUSING EXPENSES
SECTION 9: OWNERSHIP OF DURABLE ASSETS
SECTION 10: ENVIRONMENT
SECTION 11: GOVERNANCE
SECTION 12A: TRANSFERS RECEIVED
SECTION 12B: TRANSFERS GIVEN OUT
SECTION 13: SUBJECTIVE POVERTY
SECTION 14: ACCESS TO THE NEAREST SOCIAL AMENITY
SECTION 15A: CRIME AND SECURITY - HOUSEHOLD MEMBERS
SECTION 15B: CRIME AND SECURITY - COMMUNITY
SECTION 16: IDENTIFICATION OF RESPONDENTS FOR PART 2

● **Part 2: Household Consumption and Expenditure**

SECTION 1A: FOOD CONSUMPTION EXPENDITURE
SECTION 1B: FOOD CONSUMPTION EXPENDITURE
SECTION 2A: NON-FOOD LAST SEVEN DAYS
SECTION 2B: NON-FOOD LAST 1 MONTH
SECTION 2C: NON-FOOD LAST 3 MONTHS
SECTION 2D: NON-FOOD LAST 12 MONTHS
SECTION 3A: AGRICULTURE HOLDING
SECTION 3B: CROP PRODUCTION
SECTION 3C: TRANSFORMATION (PROCESSING) OF AGRICULTURAL PRODUCTS
SECTION 3D: CROP COSTS AND EXPENSES
SECTION 3E: LIVESTOCK
SECTION 3F: LIVESTOCK AND FISHING COSTS AND EXPENSES
SECTION 4A: HOUSEHOLD INCOME
SECTION 4B: MISCELLANEOUS INCOME
SECTION 4C: MISCELLANEOUS EXPENDITURES
SECTION 5: NON-AGRICULTURAL HOUSEHOLD ENTERPRISES

● **Part 3: Community Questionnaire**

● **Part 4: Price questionnaire**

Field Organization

Training Field staff

The training of interviewers was guided by an interviewer's manual. This involved comprehensive and systematic explanations on: the structure and content of the survey questionnaire; basic concepts and definitions to be applied in the execution of the survey data collection exercise; interactive discussions; simulated field trials; mock interviews.

Fieldwork

The data collection exercise for the main survey commenced on end April 2015 and ended on May 2016. Sixty-one teams were involved in the fieldwork which comprised a team of one supervisor, three interviewers and one driver. In addition, there were two standby supervisors and six interviewers. As a quality control measure and also boost the morale of the field staff, both scheduled and unannounced extended/extensive field trips were made by the senior project management personnel to check on the logistics, quality and progress of work.

Data Capture and Processing

The questionnaires were processed in batches with questionnaires from each Enumeration Area (EA) being considered as a single batch. This made it easier to manage the image and also allow the operator to capture all the necessary information about an EA.

Editing took three different forms:-

- Manual editing was carried out to ensure that the reference number which was composed of the EA number, Household number and Questionnaire number, was correct and that it was printed out on all pages on the set of questionnaire.

Table 1.1

Effective Sample Size by District

	Census number of households	Effective sample size		Census number of households	Effective sample size
