

2013

POPULATION AND HOUSING CENSUS

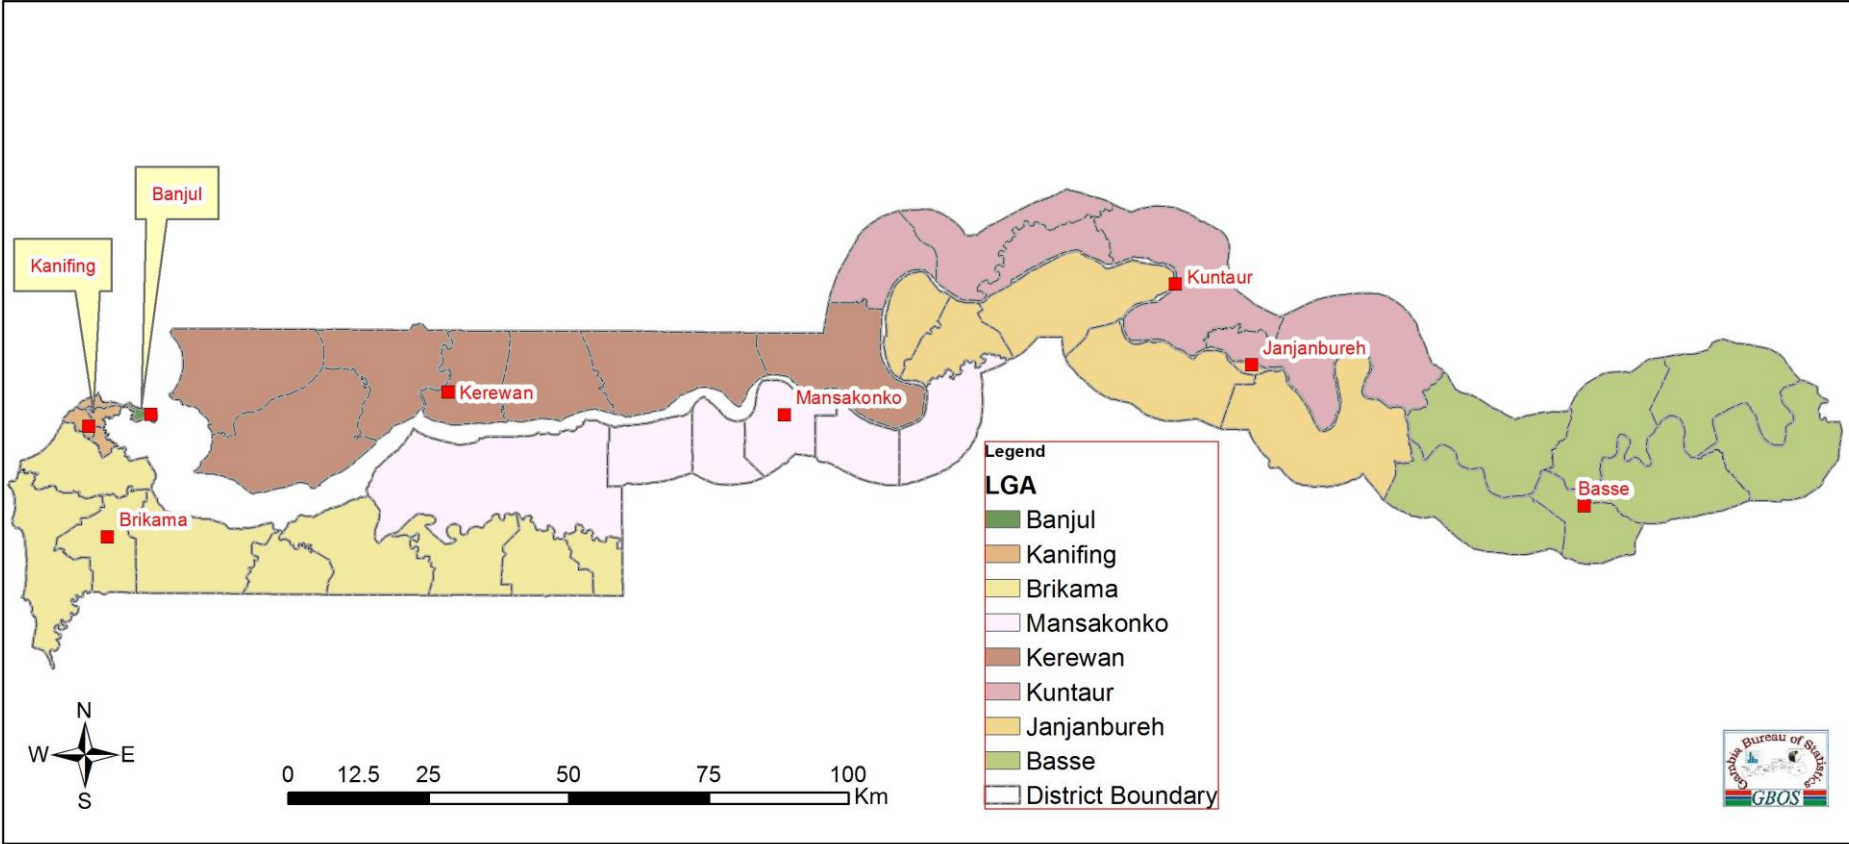

THE REPUBLIC OF THE GAMBIA

DIRECTORY OF SETTLEMENT

THE GAMBIA

Preface

This is volume 10 of the 2013 Population and Housing Census. It shows the list of all settlements within districts across all the Local Government Areas at the time of the census enumeration.

The directory of settlements is one of the most disaggregated geographic presentations of the population of The Gambia. The mapping exercise precedes the census enumeration; mappers were deployed to the entire country to collect Global Positioning System (GPS) coordinates of residence, schools, health facilities, places of worship, recreational centres, wells/taps etc. In addition, the number of households and population of each residence in a settlement was collected. The mapping field returns were used in ArcGIS (geographic information system software) to delineate and produce enumeration area (EA) maps which usually has about 500 people. The lists of the settlements were obtained from the Area Councils/Municipalities which were updated during the mapping exercise. One of the problems encountered during the mapping exercise was some settlement names have changed. But this issue was resolved by asking the residents the original name of the settlement.

In the report, all settlements at the time of the census were listed by sex, age group, LGA, district and settlement which can be used for planning purposes in cognisant of the need of the sectors.

We thank Mr Baboucarr Daffeh, Ms Lolley Kah Jallow, Ms Sainabou Jasseh, Mr. Mohammed L. Janneh, Mr. Alagie Fanneh and Mr. Ebrima W. Manneh for preparing this report. We also thank other GBoS staff for finalizing the report.

We wish to extend sincere thanks to The Gambia government for providing funding for the conduct of the census, and the United Nations Population Fund (UNFPA) for their support both technical and financial for the conduct of the 2013 Population and Housing Census.

Nyakassi M.B. Sanyang

Statistician General

Introduction

The definition of settlements are numerous and varied. In The Gambia, in Population and Housing Census undertakings, any settlement that meets the criteria below is regarded as a settlement.

1. A spatial entity within a specified locality that is occupied by a family or families.
2. A distinct cluster of buildings/structures in a locality identified by a name(s) used as a human settlement.

The country is divided into two Councils and five local administrative regions: Banjul City Council (BCC), Kanifing Municipal Council (KMC); West Coast Region (WCR), Lower River Region (LRR), North Bank Region (NBR), Central River Region (CRR) and Upper River Region (URR). The Gambia Bureau of Statistics uses Local Government Areas (LGAs) for purposes of censuses and surveys. These are Banjul (BCC), Kanifing (KMC), Brikama (WCR), Mansakonko (LRR), Kerewan (NBR), Kuntaur (CRR North), Janjangbureh (CRR South) and Basse (URR). A varying number of districts constitute an LGA except for Kanifing which has only one district.

There are forty-four districts in The Gambia distributed as follows: Banjul (3), Kanifing (1), Brikama (9), Mansakonko (6), Kerewan (7), Kuntaur (5), Janjanbureh (6) and Basse (7). As Kanifing is the only LGA with one district which is Kanifing, the profile for the LGA only includes the LGA followed by the settlements.

For settlement with two different names, the first name is stated and the alternate name is in brackets.

According to the results of the 2013 Population and Housing Census, the total number of settlements is 1891 as shown in table 1 below.

Table 1: Number of settlements by Local Government Area

LGA	Settlements
Banjul	1
Kanifing	19
Brikama	355
Mansakonko	152
Kerewan	332
Kuntaur	342
Janjanbureh	321
Basse	369
Total	1,891

NB: NS in the profile, means age not stated or the data is missing

NB: The data presented in this report is only for both sexes and females. To get the male population, subtract the female population from the both sexes.
